

NEUROFEEDBACK ENTHUSIASTS (m/f/d) FOR THE DEPARTMENT TRAINING & EDUCATION

You are already working successfully with the NeuroAmp II/IIIs and our neurofeedback software in your practice? You are enthusiastic about the treatment successes, want to share your knowledge and motivate others for neurofeedback? Then take the plunge and get in touch with us!

Depending on your personal strengths, experience and professional background, you can get started with webinars, basic courses or indication-specific courses. From the joint preparation of training content to leading small groups to giving your own presentations. You will be supported by a very experienced team of lecturers who will walk you through the process of becoming a neurofeedback lecturer.

What we offer

- A freelance job with flexible time management
- Benefit from exchanging experiences with colleagues
- Participation in train-the-trainer sessions with neurofeedback experts
- A knowledgeable, well-connected team of lecturers
- You are close to the latest developments and neurofeedback trends
- You expand your network and improve your neurofeedback skills
- You can share your knowledge with colleagues at eye level

Your qualifications

- You practise a licensed health profession or have your professional background in psychotherapy or psychology
- You are already working successfully with the NeuroAmp II/IIIs and our neurofeedback software Cygnet or BEELab
- You are thinking about or are in the middle of OMC certification
- You enjoy sharing your knowledge with others
- You want to advance neurofeedback

If you would like to build up a second career, please send us your documents as a PDF file with the reference number BM240101 to office@beemedic.co.uk. In addition to your CV, we are of course particularly interested in the focus of your work and which neurofeedback methods and indications you have experience with. And above all, why you want to teach. We are looking forward to your application!

About the company

BEE Medic GmbH is an owner-managed medical technology company and has been developing high-end systems for non-invasive neurotherapy and diagnostics since 2005. The focus is on the development of user-friendly, innovative neurofeedback systems, with product groups for outpatient and clinical use as well as systems for EEG/ERP diagnostics. BEE Medic GmbH is active worldwide with **headquarters in Switzerland** and subsidiaries in Germany, UK, USA and China. Under the same brand we offer neurofeedback training exclusively for mental health practitioners throughout Europe.

Note on data protection: By sending us your application documents, you agree that we will treat the data you provide in accordance with applicable law, in particular the [German Data Protection Act \(DSGVO\)](#), and use it exclusively for the application process and communication with you. Information on the handling of your data can be found on our website at www.beemedic.de. You can revoke the use of your data at any time.
