

### Your expert for hand hygiene

Bavirex GmbH is the official importer and distributor of Germstar products for Switzerland. With the worldwide patented products we want to bring the hygiene standard in the professional as well as in the public sector to a higher level. The name BAVIREX comes from the English language and stands for „bacteria-virus-exterminate“.

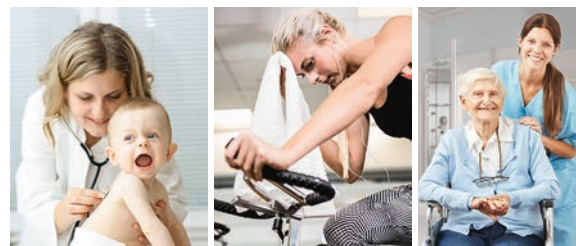

### Why should hands be disinfected regularly?

During our daily activities, we come into contact with countless germs. Over 80% of all infectious diseases are transmitted via hands. Hand disinfection is a simple and very efficient measure to prevent germ transmission, thus protecting life and health.

### Bavirex GmbH

Seehaldenstrasse 42  
CH-8800 Thalwil

info@bavirex.com Tel. +41 (0)44 680 12 13
